

YOUR INDUCTION HAS
BECOME GREAT

PATENTED COOKING SYSTEM

COOKING WITH INDUCTION SAVING ENERGY AND DEFENDING
THE ENVIRONMENT

UNIQUE, FAST AND FLEXIBLE FOR AN EFFICIENT COOKING

ENTIRELY MADE IN ITALY

Horecatech Srl is pleased to be able to introduce the patented Marcellino cooking system, a revolutionary novelty in induction cookers world.

Thanks to the combination of the **patented Marcellino system** and the digital induction cooker, the work in your kitchen will be faster, more flexible, more efficient, and less expensive. The interaction of induction technology with the patented Marcellino system allows to reach high temperatures in

a short time, saving energy without having to use a high voltage socket.

In addition to the basic Marcellino system, thanks to the **Marcellino Everywhere** trolley, you can have a real mobile kitchen, optimal for catering services and with very reduced costs.

Marcellino EVERYWHERE

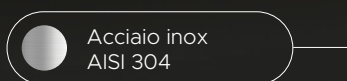

This variant of the Marcellino System can be used as a multifunctional kitchen, both indoors and outdoors. The trolley is equipped with four wheels, two of which are braking, the housings hold two multifunction containers under which the induction cookers are housed which lies on a special height-adjustable support. For greater hygiene requirements, the trolley can be equip-

ped with tempered glass and steel protections. Marcellino Everywhere includes a stainless steel drawer between the housings.

The versatility of the Marcellino Everywhere system allows you to take advantage of a low energy consumption multifunction kitchen in a small space. Practical, innovative, economical and flexible.

THE STANDARD MEASSURES OF THE MARCELLINO EVERYWHERE ARE
1200 x 700 x 850 mm
